SKINCARE SAVIOURS

Try these divine beauty buys to get your complexion glowing

1 NOURISH IT
 One of beauty's most iconic brands has reformulated with five new skincare ranges – **Innova Super Sensitive, Skin Clear, Thirsty Skin, Renew and Restore**, from \$19.95. The names speak for themselves, and each range includes products such as day and night cremes, cleansers, anti-ageing lotions and more.

2 SPRAY IT
 Chanel No. 5 has been a covetable possession ever since Coco Chanel created it in 1921. Over the years it has been modernised, yet it's still the number one selling fragrance in the world. And in homage to Madame Chanel's philosophy of never leaving home without your fragrance, **Chanel No.5 Twist & Spray, \$164 for three 20ml bottles**, is a convenient travel size perfect for the handbag. Eau comes in Eau de Parfum, Eau Premiere and Eau de Toilette.

3 SOOTH IT
 Summer's hot days and warm nights can have your skin crying out for anything cooling. Try **Avalon Organics Moisturizing Cream Shave with Peppermint, \$15.50**, for an invigorating shaving aid for legs and under your arms. The peppermint oil delivers a delicious burst of zing that, as a coolant, works better than a cold shower.

4 REFINE IT
Shiseido Perfect Refining Foundation, \$81, creates a silky smooth coverage without any unsightly creasing. This clever liquid foundation helps blend away pores, and scatters light evenly to correct uneven texture, acne scars, pigmentation and redness. And if that wasn't enough, it lasts for up to 15 hours, even through perspiration and excess oil. Now that's what we call brilliant.

5 SCRUB IT
Nutrimetics Nutri-Rich Hand & Body Polish, \$30, will keep your faux tan going by getting rid of dead, scaly skin cells before they render it unsightly. This beautiful scrub is enriched with apricot kernel oil and cane sugar to exfoliate and nourish, leaving your skin soft, smooth and ready to glow. Plus, it smells great.

6 HYDRATE IT
 After a day spent outdoors, parched summer skin will love **OPI Avojuice Skin Quenchers, \$19.90**. These little bottles of hydration are a bit like smoothies for the skin, rich in nourishing avocado oil and soothing aloe. Choose from the delicious flavours of Ginger Lily, Coconut Melon, Cran & Berry, Crisp Apple, Grapefruit, Jasmine, Mango, Peach and Raspberry Violet to drench your thirsty skin in rich moisture.
