Taranaki  
Daily News reporter  
Felicity Ross is looking  
for a new look.

No one wants to look like a working girl after applying eye shadow so when I received Marbleyes Eyeshadow from Nutrimetics I was sceptical about my ability to get away with such a vibrant blue shade.

Not keen on giving the likes of Lady Gaga or Keisha a run for

their money on the outrageous make-up stage I applied the new shadow with the appropriate amount of caution.

I needn't have worried. Applied liberally it could have been a disaster, but one swipe with the brush was all that was needed to

get the right amount of pop.

Next on the list of eye wear was the Shimmereyes Eye Pencils in a chocolate brown. Having only tried black eye liner in the past I was keen to give this product a go. With smudge-free and water resistant features, the colour stayed on all day at work, despite the humidity outside and did not encourage passers-by to mistake me for Courtney Love. A clear winner.

Marbleyes Eyeshadow is \$25 and Shimmereyes Eye Pencil is \$19 and available from Lorraine Day on 0274 479 890.
