

FROM WORK TO WORK IT GIRL!

HEADING OUT STRAIGHT FROM WORK AND NEED TO REVAMP YOUR LOOK ON THE RUN? WELL FRET NO MORE BECAUSE NUTRIMETICS HAVE COME TO THE RESCUE, TAKING YOU FROM THE DESK TO THE DANCE FLOOR WITH OUR NEW INSTANT GLAM ADDITIONS!

We've all been there, it's Friday afternoon and that means dinner and drinks with the girls... and perhaps a few moves on the dance floor if all goes well! Being Friday you're already feeling the pull of the working week and it's more likely than not showing along your frown line. Not exactly the picture of finesse, right ladies?

Just last week I found myself rushing straight from work to make dinner and a show with a friend. By the time I had frantically wrapped up the weeks duties and bolted out the front door to make my way to the venue in question in record time, I received quite a disturbing wake up call as I caught an impromptu glimpse of my reflection. Yes of course I had tailored my work outfit to double as my evening attire, and I thought I had applied a strategically liberal amount of coverage in the morning to see me through the night... perhaps not! My face wasn't reading fresh and sexy; it was sort of relinquishing a dishevelled cry for some coverage and lip gloss!

The moral of the story is you needn't learn the hard way. Never again will you have to turn down that long awaited invite to after work drinks from your office crush, in fear of scaring him off with the dreaded 5pm make-up lucky dip. This month Nutrimetics makes it oh so easy to transform your look with 30% off our NEW quintessential instant glam additions that can easily live in your handbag; your face will be picture perfect for every occasion, any eve of the week.

NEW HANDBAG HANDIES

- [3] Bare (14767)
- [4] Blush (14766)

EXPERT BEAUTY TIP

Tired and puffy eyes are a huge no no when it comes to looking our best. To keep the sensitive area around the eyes looking fresh and full of beans simply follow these easy steps:

- Be sure to stay hydrated – water is our skin's bestest friend! When we are dehydrated our body stores water as a defense mechanism, resulting in aggravated, tired looking eyes. Aim for two litres of filtered water per day.
- Cucumber is renowned worldwide for its anti inflammatory qualities that work wonders to reduce swelling, redness and dark circles under eyes. Pop a few cucumber infused **Nutri-Spa Relaxing Eye Pillows (1019) \$22.00 RRP** over your tired lids and zone out for 15 minutes. Trust me; your eyes will thank you!

- Rinse your face with cold water first thing in the morning. This will constrict blood vessels, restricting any unwanted puffiness. This is also a great energiser.
- For foolproof under eye freshness, use:

BOTH 30% OFF AT \$17.90.
